HELPFUL HINTS : DOUBLE DRAGON

Hidden Invincible Mode :

You can continue unlimited times in the 4th level. When you first enter the level, jump up and down at least 30 times using either the jump/front kick or the jump/back kick (if playing with two players, each player must jump up and down 30 times).

This will enable you unlimited continuous play through the main boss of this level in the one-player mode. In the two-player mode you will have unlimited continuous play until the two players fight each other. Then each player is on his own - may the better man win!
